

# HIV/AIDS AWARENESS

Both young and old, gay or straight, it's **WHAT** you do not **WHO** you are that put you at risk for HIV and other STDs. Please take all preventive measures and go get tested as early as possible. It's free. your **LIFE** is in your own **HANDS!**

Have you reach out to teenagers in your household or in your communality? If not, then, start educating your nightbors on the importance of HIV/AIDS and other life treading disease like STDs. Could you also be at risk? If your first thought has been HIV and STDs? Not me! Than you need to think again; because HIV is the virus that causes AIDS; and you can get this disease is in many WAYS! HIV and AIDS is just one of the many killer diseaas that out there waiting to take an individual down.
